

Men of the Cloth, Inc.

Digital Art Requirements

Men of the Cloth supports the **Adobe Photoshop and Illustrator** programs up to the **Creative Suite 5**. Files submitted should be native to or directly supported by these applications.

General

- **All files must be Photoshop or Illustrator compatible.**
- **Fonts must be converted to outlines.**
- **We do not accept InDesign files--export eps files from InDesign**
- One layout per document. (for example-ten designs equals ten files, one layout per file)
- Proportions of artwork and placement **MUST** match those of the desired finished size.
- Send only those files required to produce the job
- Colors should be specified using the Pantone system for the most accurate color match. Exact color matches to all Pantone solid colors are not always possible with process color (consult the PANTONE Color Bridge Guide)
- Files should not have bleeds. We leave extra white fabric to wrap around for pole pockets, hems, etc.

Photoshop files (Raster art)

- Must be Photoshop compatible
- Must be CMYK (DO NOT SEND RGB IMAGES)
- Resolution for Photo Images should be 150 ppi per finished inch (at actual size) Resample images as needed.
- Resolution for Line-Art images must be 300 ppi per finished inch (at output size)
- Do not use Photoshop EPS files as linked raster images. Raster links should be tiff, psd, or jpg format.

Illustrator files (Postscript/Vector art)

- Fonts must be converted to outlines.
- All placed files must be saved in an editable format and LINKED.
- Send linked files in separate folder.
- Do not use Photoshop eps images as links--raster eps linked files should be converted to psd, tiff, or jpg.

**Men of the Cloth is NOT responsible for spelling
or other errors on customer supplied files.**
